Dear Families

Welcome back to the Summer Term. We all hope that you had a lovely Easter break and enjoyed some of the glorious weather that we had at the start of the holiday. The children have settled to life back in school very quickly and are already working very hard on their new topics. Do have a look at your child's class page on our website to find out more about what they will be learning over the term...[Mount Hawke Academy - Home](#).

This term is going to be a very busy one again. Just looking at the dates at the end of this newsletter will give you an idea of this! One of the big events is our celebration of our school turning 150 years old. We only discovered this part way through this year and quickly decided that this impressive milestone must be celebrated. Teachers are drawing up plans at the moment, with each class taking on a decade to find out more about during our Celebration Week. This will culminate on Friday 27<sup>th</sup> June, when you will be invited in during the afternoon to share all that we have learned. If you, or anyone you know, has any old photos that we can copy, or any memories to share, please do get in touch.

## Celebrations

Today saw a lovely end to the month – our Superstar Assembly. The parents of the children named below have already had a letter, telling them that their child has been noticed for going above and beyond in all that they do and we are giving them a Book Token too to help them buy a book of their choice.

This is to say a huge THANK YOU and WELL DONE for all that our Superstars do, from everyone at school.

## Recommended Reads

This week's recommendation is from Dulcie in Pendeen Class and she recommends The Worst Witch series by Jill Murphy.

Mildred Hubble gets into lots of trouble with her friends at witch school called Cade's Academy for Witches. She doesn't think she is from a witching family but she is the head teacher's niece. I liked it when Ethel turned her sister into a trophy!

## Uniform and PE Kit

## Science Challenge

Here's our new term's challenge! Remember to send in photos or videos to [hello@mounthawke.org](mailto:hello@mounthawke.org).

### STEM: Paper Spinner Helicopter

#### You will need:

- A4 copy paper
- scissors
- paperclips
- ruler
- pencil
- timer or stopwatch

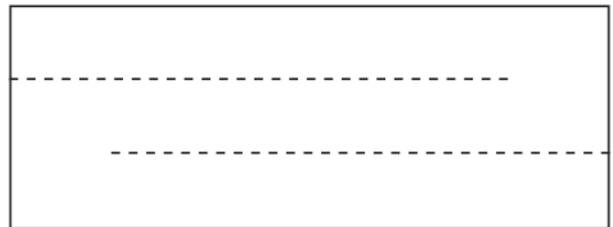

#### Something to think about

- What can you do to speed up or slow down the fall of the spinner?
- Is it affected by different types of paper, the number of paperclips, the size of the spinner or the height it is dropped from?
- Can you make the slowest spinner?
- Can you design a different spinner?

#### Instructions:

- Cut a rectangle 6 cm x 15 cm from the paper.
- Mark lines along the length of the rectangle 2 cm apart as shown in the diagram.
- Cut along one line stopping 2cm from the end.
- Rotate the rectangle and cut along the other line stopping 2cm from the end.
- Overlap the two ends together at a right angle (90 degrees) and join with a paperclip.
- Your paper strip should be slightly twisted when the ends are joined together.
- Drop your spinner from a height and time how long it takes to reach the ground.

How to mark the rectangle of paper for cutting.
